

# CLEANING ■ SEALING ■ MAINTENANCE

Sealing and maintenance solutions for all types of stone, porcelain, quarry, terracotta and glazed ceramic

## FLOORSHINE TECHNICAL DATA SHEET REF: 6/5/1

### LTP FLOORSHINE

#### Clean and Shine Renovating Cleaner

FOR INTERIOR USE

A highly effective maintenance cleaner for tiled, wood and laminate surfaces.

Cleans and protects in one application. Renovates dull looking floors. Regular use will also help to reinforce protection on tiled surfaces sealed with LTP Ironwax Gloss, LTP Ironwax Satin & LTP Glaze Protector.

### Directions for use

Weekly Maintenance:

Dilute 1 - 2 capfuls per litre of warm water. Mop the surfaces with the solution. Do not rinse. Allow surfaces to dry. Do not walk over the floor while this product is drying. After use rinse mop well with water. Do not apply to polished surfaces.

After several years, if tiled and Laminate surfaces suffer from a build up or become difficult to clean, remove the accumulation using LTP Grimex. Wooden floors should be gently stripped using LTP Solvex to remove accumulation. After intensive cleaning, any previously sealed surfaces should be re-sealed.

### Coverage

1 litre should be sufficient to wash an average floor of 20m<sup>2</sup> approx 40 times

### Notes

**NB.** Use in place of your normal detergent. Do not mix with any other cleaning agent. Not suitable for highly polished tiled surfaces - for correct maintenance of this type of surface use **LTP Waxwash** or **LTP Stonewash**.

### Storage information

Store in a cool, dry, frost-free environment.

Shelf life-Up to 5 years

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area.
